

### **AMENDMENTS TO THE CLAIMS**

The following listing of claims will replace all prior versions, and listing of claims in the application:

#### **LISTING OF CLAIMS:**

Claim 1 (Previously presented) A replaceable bedding structure for use in both winter and summer, comprising:

a body defined by a pillow formed of a foamed material; and

a cover encasing the pillow and having a bottom cover and a upper cover releasably coupled to the bottom cover;

wherein the bottom cover has an opening and a coupling section located on a periphery of the opening, the upper cover having a base, a plurality of spaced blocks being laid on the base and interconnected by connection threads extending therebetween, the upper cover having a connecting section located on an outer periphery of the base to engage with the coupling section so that the upper cover and the bottom cover are coupled to encase the pillow, the connecting section of the upper cover and the coupling section of the bottom cover being defined by a zipper.

Claim 2 (Previously presented) The replaceable bedding structure of claim 1, wherein the blocks are flat pieces of bamboo.

Claims 3 - 4 (Cancelled).

Claim 5 (Withdrawn) A replaceable bedding structure for use in both winter and summer, comprising:

- a body defined by a mattress; and

- a cover overlaying the mattress and having a bottom cover and a upper cover releasably coupled to the bottom cover;

- wherein the bottom cover has an opening and a coupling section located on a periphery of the opening, the upper cover having a base, a plurality of spaced bamboo blocks being laid on the base and interconnected by connection threads extending therebetween, the upper cover having a connecting section located on an outer periphery of the base to engage with the coupling section so that the upper cover and the bottom cover are coupled to overlay the mattress, the connecting section of the upper cover and the coupling section of the bottom cover being defined by a zipper.
